

RIGHT DRUG.

RIGHT INMATE.

RIGHT ON TIME.

PNS has over 15 YEARS of CORRECTIONAL FACILITY EXPERIENCE & EXPERTISE to operate and manage your medications at a LOWER COST.

DECREASES ERROR

Since all medications are contained in one individual roll pack, you can drastically lower the risk of giving the wrong medication at the wrong time. Each package is clearly marked with the inmates name, description of the contents and time of day to be given to help you administer with greater accuracy.

LOWERS LIABILITY

Fewer errors mean fewer liability problems. PNS can help reduce the likelihood of costly legal actions.

SAVES MONEY

A better medication administration option means less overhead and more money to operate your facility.

CUTS PREP TIME

No more sorting out medications from bottles or punch cards. We can cut your preparation time in half.

- 7 Day Cycle Fill vs. 30 Day
- Easy ordering by Phone, Fax or Electronically & Fast Delivery
- Printed Medication Administration Records (MAR's) monthly for each inmate
